

## The Organization

IU13 is organized into the Office of the Executive Director and five departments – Business Services, Human Resources Services, Instructional Services, Early Childhood and Special Education Services, and Technology Services – and also administers the Pennsylvania Training and Technical Assistance Network (PaTTAN) office in Harrisburg. All areas work in concert with each other to achieve the organization's goals and to provide high-quality, memorable customer service and innovative leadership.

# About IU13

Lancaster-Lebanon Intermediate Unit 13 (IU13) is an education service agency dedicated to delivering services to schools and communities across the state. IU13 is a leader in recognizing the needs of schools and implementing programs to meet those needs, with a core compelling purpose of improving student learning.

Over the years, we have expanded our reach—using our expertise to provide products and services not only to Lancaster and Lebanon counties' 22 public school districts, but also to nonpublic schools, education agencies, parents, preschools, adult learners, businesses, municipalities, and more.

Despite this growth, everything that we do supports our core mission of improving student learning.

*We invite you to explore our website to discover how we might be able to help you—perhaps in ways you never imagined!*

## Serving Students and Families:

**More than 7,800 children—from birth to age 21—are served by IU13 each year.**

We help students improve learning in many areas, from early childhood education and classroom instruction all the way to support services such as speech therapy and job skills training.

## Serving Educators:

**Educators face a number of unique challenges, both inside the classroom and out.**

We offer a variety of products and services that were developed specifically for the types of issues that educators experience. But we don't stop there. If we don't have a product or service that meets your need, we'll work with you to develop one that fits. Our goal of improving student learning starts with partnering with those who know their students best—educators.

## Serving Administrators:

**For administrators, improving student learning happens on many levels, in the classroom, business office, board room, and beyond.**

At IU13, we use our experience to help you do exactly that. Whether it's professional development for you or your staff, programs designed to save you money, professional resources, or collaboration and networking, we have a number of products and services geared toward making your job easier.

## Serving Businesses/Municipalities:

**As an education service agency, we have a great deal of experience in educating people of all ages, supporting organizational leaders in their work, and developing and coordinating cost-saving measures like collaborative purchasing.**

And we're putting that experience to work for your company or municipality. We can help you with workforce training, safety and security measures, collaborative purchasing, and HR and technology consulting—we even have a state-of-the-art Conference and Training Center available for any conference needs your business may have. We can also develop customized training sessions for your company, based on your specific need.

## Serving Our Community:

**At IU13, we understand that the students, families, schools, and businesses we serve don't stand alone—together we are all connected.**

And as part of our community, we offer a number of products and services to the public and to help make our community even stronger. From electricity programs designed to save you money to adult education, employment opportunities, volunteer positions and more, we put our resources at your disposal.
