INDEPENDENT AUDITORS' REPORT

To the Board Officers and Members
Lancaster-Lebanon Intermediate Unit No. 13
Lancaster County, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of **Lancaster-Lebanon Intermediate Unit No. 13**, Pennsylvania (the Intermediate Unit) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Intermediate Unit's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of **Lancaster-Lebanon Intermediate Unit No. 13**, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8, budgetary comparison information on pages 42 through 45, and the other postemployment benefits (OPEB) healthcare benefits plan information on pages 47 through 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise **Lancaster-Lebanon Intermediate Unit No. 13's** basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 8, 2015, on our consideration of **Lancaster-Lebanon Intermediate Unit No. 13's** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering **Lancaster-Lebanon Intermediate Unit No. 13's** internal control over financial reporting and compliance.

Reporting on the Intermediate Unit as a Whole

Government-Wide Statements

The government-wide statements report information about the Intermediate Unit as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Intermediate Unit's net position and present information showing how the Intermediate Unit's net position has changed. Net position, the difference between the Intermediate Unit's assets and liabilities, is one way to measure the Intermediate Unit's financial health or position. Over time, increases or decreases in the Intermediate Unit's net position is an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the Intermediate Unit, you need to consider additional non-financial factors, such as changes in the Intermediate Unit's grant funding and changes in services provided to our member school districts.

The government-wide financial statements of the Intermediate Unit are divided into two categories:

- **Governmental Activities** - All of the Intermediate Unit's basic services are included here, such as instruction, curriculum, management, administrative and community services. School District special education contracts, state grants/allocations and federal grants finance most of these activities.
- **Business-Type Activities** - The Intermediate Unit's services for supplemental contracts, statewide sales, consortium services and fee-for-service programs are included in this category. The costs of these programs are supported through user charges for services and goods provided.

Fund Financial Statements

The Intermediate Unit's fund financial statements, which begin on [Page 12](#), provide detailed information about the most significant funds and are not intended to present the Intermediate Unit as a whole. Some funds are established based on state reporting requirements.

- **Governmental Funds** - Most of the Intermediate Unit's activities are reported in the governmental funds, which focus on how money flows into and out of those funds, the balances left at year end and available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a short-term view of the Intermediate Unit's general operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or less financial resources that can be spent in the near future to finance programs provided by the Intermediate Unit. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements. Governmental funds include the general fund and the special revenue fund.

Fund Financial Statements (Continued)

- Proprietary Funds - The proprietary funds are used to account for the Intermediate Unit's activities that are similar to business operations in the private sector; and a significant portion of funding is obtained through user charges for services provided to outside customers or other programs of the Intermediate Unit. Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.
- Fiduciary Funds - The fiduciary funds are used to account for the assets held by the Intermediate Unit as a trustee or agent for the following activities and groups: the school-to-work program, special education activities fund, Lancaster tax collection payroll and Lancaster-Lebanon athletic association payroll. All of the Intermediate Unit's fiduciary activities are reported in a separate statement of net position - fiduciary fund on [Page 19](#). We exclude these activities from the Intermediate Unit's other financial statement because the Intermediate Unit cannot use these assets to finance its operations.

The majority of the remaining net cost of activities is supported through member School District contribution and interest earnings.

The Intermediate Unit's Funds

At June 30, 2014, the Intermediate Unit government funds reported a combined fund balance of \$8,650,921 which is an increase of \$558,395 from last year.

General Fund Budget

The Intermediate Unit's general fund budget is prepared according to Pennsylvania Law and is based on accounting for general operating, grant, and other program transactions. The Intermediate Unit's general fund budget is comprised of over 180 component program budgets financed through a variety of state, federal, and local sources. During the course of the fiscal year as new initiatives are funded by the state or federal government, the Board of School Directors authorizes new program budgets as components of the general fund budget. Additionally, the Board of School Directors authorizes revisions to previously approved program budgets to accommodate differences from the original budget to the actual expenditures of the Intermediate Unit.

A statement showing the Intermediate Unit's original and final budget amounts compared with actual transactions for the period is provided on Pages 42 - 45.

Depreciation Expense	(816,737)	
Capital Outlays	<u>327,157</u>	(489,580)

The long-term portions of compensated absences, retirement bonuses and other postemployment obligations are not due and payable in the current period and, therefore, are not reported as a liability in the funds. In the funds, expenditures are recorded when they are paid, whereas expenses are recorded when due in the statement of activities. (155,973)

Internal service fund transactions are not reported in governmental funds. However, in the statement of activities, the balance of the internal service fund is included in governmental activities. The internal service fund change in net assets is allocated to governmental activities. 3,348,413

Lancaster-Lebanon Intermediate Unit No. 13

NOTES to FINANCIAL STATEMENTS

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES

The **Lancaster-Lebanon Intermediate Unit No. 13** (Intermediate Unit) provides a full range of educational services for school districts within Lancaster and Lebanon Counties. These include special education programs for students with disabilities, alternative education, adult education, and a variety of support and staff development services. The governing body of the Intermediate Unit is a board of school directors with a representative from each school district within the two counties, with two districts serving in an associate capacity each year. The daily operation and management of the Intermediate Unit is carried out by its administrative staff, headed by an Executive Director who is appointed by the Board of School Directors (Board).

The accounting policies of the **Lancaster-Lebanon Intermediate Unit No. 13** conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

Reporting Entity

Consistent with guidance contained in Statement No. 14 of the Governmental Accounting Standards Board (GASB), *The Financial Reporting Entity*, and as amended in Statement No. 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34*, the criteria used by the Intermediate Unit to evaluate the possible inclusion of related entities (Authorities, Boards, Councils, and so forth) within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given case, the Intermediate Unit reviews the applicability of the following criteria:

The Intermediate Unit is financially accountable for:

1. Organizations that make up its legal entity.
2. Legally separate organizations if Intermediate Unit officials appoint a voting majority of the organization's governing body and the Intermediate Unit is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the Intermediate Unit as defined below.

Impose its Will - If the Intermediate Unit can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.

Financial Benefit or Burden - If the Intermediate Unit (1) is entitled to the organization's resources, (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization, or (3) is obligated in some manner for the debt of the organization.

3. Organizations that are fiscally dependent on the Intermediate Unit and have a financial benefit or burden as defined above. Fiscal dependency is established if the organization is unable to adopt its own budget, levy taxes or set rates or charges, or issue bonded debt without the approval of the Intermediate Unit.

Based on the foregoing criteria, no additional entities are included in the accompanying general purpose financial statements.

Lancaster-Lebanon Intermediate Unit No. 13

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation - Fund Accounting

The accounts of the Intermediate Unit are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, deferred inflows and outflows, fund equity, revenues, and expenditures or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent.

Basis of Presentation - Financial Statements

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Intermediate Unit as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid “doubling up” revenues and expenses. The statements distinguish between those activities of the Intermediate Unit that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents direct expenses and program revenues for each function or program of the Intermediate Unit’s governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Intermediate Unit, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Intermediate Unit.

Fund Financial Statements

Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported in separate columns with composite columns for nonmajor funds. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures, and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Lancaster-Lebanon Intermediate Unit No. 13

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation - Financial Statements (Continued)

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities as well as deferred inflows and outflows of resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the Intermediate Unit finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

The Intermediate Unit reports the following major governmental funds:

General Fund - The general fund is the principal operating fund of the Intermediate Unit. It is used to account for all financial resources except those accounted for in another fund.

Special Education Fund - This fund accounts for the administration of special education services and programs.

Special Education Transportation Fund - This fund accounts for specialized transportation services for school-age and preschool children.

State Funded Early Intervention - This fund accounts for a variety of early intervention services provided by Intermediate Unit personnel and by contracts with local agencies.

The Intermediate Unit reports the following proprietary funds:

Enterprise Fund - This fund is used to account for the Intermediate Unit's operations that are financed and operated in a manner similar to the private business enterprises, where the intent of the governing body is that the cost of providing goods or services to school districts on a continuing basis be financed or recovered primarily through user charges or cost reimbursement plans. Internal Service Fund - This fund is used to account for services provided to various programs of the Intermediate Unit on a user charge basis. This fund includes the research and development fund, operating infrastructure programs, the retirement stabilization fund, hospitalization, workers' compensation, and unemployment self-insurance costs.

The agency fund accounts for assets held by the Intermediate Unit as agent for others. Agency funds are custodial in nature and do not involve measurement of results of operations. This fund includes the school-to-work program, special education activities fund, programs for the tax collection bureau payroll, and the Lancaster-Lebanon Athletic Association payroll.

Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

Government-wide, proprietary, and fiduciary fund financial statements measure and report all assets, liabilities, deferred inflows and outflows of resources, revenues, expenses, gains, and losses using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the Intermediate Unit is considered to be 60 days after fiscal year end. Revenue from federal, state, and other grants designated for payment of specific Intermediate Unit expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as unearned revenues until earned. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except debt service, compensated absence payments, retirement bonuses and other postemployment benefits, which are recognized when due.

Under the modified accrual basis, the following revenue sources are considered susceptible to accrual at year end: tuition, grants and entitlements, student fees, and interest on investments.

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements, proprietary funds, and the fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

Revenue resulting from exchange transactions in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the Intermediate Unit receives value without directly giving equal value in return, include grants, entitlements, and donations. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Intermediate Unit must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Intermediate Unit on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. The principal operating revenues of the Intermediate Unit's enterprise fund are charges for goods or services provided to school districts. Operating expenses include the costs to provide these goods and services to school districts. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Intermediate Unit's policy to use restricted resources first, then unrestricted resources as they are needed.

Encumbrances

Encumbrances at year end, to be paid out of revenue already recognized, are reported as assigned fund balance since they do not constitute expenditures or liabilities but serve as authorization for expenditures in the subsequent year. As of June 30, 2014, the Intermediate Unit has \$1,249 of these encumbrances.

Encumbrances associated with grant programs for which the associated revenue has not been recorded due to not meeting revenue recognition criteria are not recorded as assigned fund balance. These encumbrances total \$43,205 at June 30, 2014.

Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand and interest-bearing bank deposits carried at cost plus accrued interest, which approximates fair value.

Investments

Investments are recorded at fair value.

Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in/first-out basis and are expensed when used.

Inventories in the general fund represent the estimated cost using the first-in/first-out basis for materials and supplies on hand in the warehouse at June 30, 2014. The expenditures for these materials and supplies are recognized when the items are transferred out of the warehouse.

Prepaid Expenses

Prepaid expenses represent the cost of goods and services that has been paid for in advance of receipt. The consumption method is used to account for prepaid expenses in all fund types. Under the consumption method, prepaid expenses are recorded as assets and expended or expensed as the goods or services are received.

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets and Depreciation

The Intermediate Unit's property, plant, and equipment with useful lives of more than one year are stated at historical cost (or estimated historical cost) and comprehensively reported in the government-wide financial statements. Proprietary fund capital assets are also reported in their fund financial statements. Donated assets are stated at fair value on the date donated. The Intermediate Unit generally capitalizes assets with a cost of \$1,500 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated historical costs of capital assets were derived, when information supporting historical costs was not obtainable, by adjusting current replacement cost back to the estimated year of acquisition. Estimated useful lives, in years, for depreciable assets are generally as follows:

Buildings and Improvements	40 Years
Furniture, Fixtures, and Equipment	5-15 Years
Vehicles	5 Years

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position.

Compensated Absences

The Intermediate Unit accrues vacation leave as a liability as the benefits are earned by the employees if it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive severance benefits and those the Intermediate Unit has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee's wage rates at year end, taking into consideration any limits specified in the Intermediate Unit's severance policy. For governmental funds, that portion of unpaid compensated absences that is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected.

Additional amounts are accrued for salary-related payments associated with the payment of compensated absences using the rates in effect at the balance sheet date. The Intermediate Unit has accrued the employer's share of social security and medicare taxes, where applicable.

Pension Plan

Substantially all full-time and part-time employees of the Intermediate Unit participate in a cost-sharing multiple employer defined benefit pension plan. The Intermediate Unit recognizes annual pension expenditures or expenses equal to its contractually required contributions, subject to the modified accrual basis of accounting in governmental funds. (That is, if contributions from governmental funds are required but not made, the difference would not be reported as an expenditure until payable with expendable, available financial resources). The Intermediate Unit made all required contributions for the year ended June 30, 2014, and has recognized them as expenditures or expenses in the various funds of the Intermediate Unit.

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund Activity

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as interfund receivables and payables. Interfund balances within governmental activities are eliminated on the government-wide statement of net position. The only interfund balances which remain on the government-wide statement of net position are those between governmental and business-type activities. Those amounts are reflected as "internal balances."

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2014.

Fund Balance Classification

Fund balance for the governmental funds can be classified in five different categories: nonspendable, restricted, committed, assigned, and unassigned.

Nonspendable fund balance includes amounts that are not in a spendable form or are required to be maintained intact.

Restricted fund balance includes amounts that can be spent only for specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. Restrictions may be changed only with the consent of the resource providers.

Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the Intermediate Unit. Commitments may be changed only by the government taking the same formal action that imposed the constraint originally.

Assigned fund balance comprises amounts intended to be used by the government for specific purposes. Intent can be expressed by the Intermediate Unit, Executive Director or CFO.

In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Classification (Continued)

Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. Unassigned amounts are available for any purpose.

The Intermediate Unit considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available.

The Intermediate Unit considers committed and assigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Current Changes in Accounting Principles

During the current year, the Intermediate Unit adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Statement No. 65 clarifies the appropriate reporting of deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting.

During the current year, the Intermediate Unit adopted GASB Statement No. 66, *Technical Corrections, an Amendment of GASB Statements No. 10 and 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncement*.

During the current year, the Intermediate Unit adopted GASB Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*. The objective of this statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees.

Pending Changes in Accounting Principles

In June 2012, GASB Issued Statement No. 68, *Accounting and Financial Reporting for Pensions*, which amends GASB Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The provisions of this statement are effective for the June 30, 2015 financial statements.

In January 2013, GASB issued Statement No. 69, *Government Combinations and Disposals of Government Operations*. This statement establishes accounting and financial reporting standards related to government combinations and disposals of governmental operations. The provisions of this statement are effective for the Intermediate Unit's June 30, 2015 financial statements.

In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which amends GASB Statement No. 68. The objective of this statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions of this statement are required to be applied simultaneously with the provisions of GASB Statement No. 68 and are effective for the Intermediate Unit's June 30, 2015 financial statements.

Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (c) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

The deposit and investment policy of the Intermediate Unit adheres to state statutes. There were no deposits or investment transactions during the year that were in violation of either state statutes or the policy of the Intermediate Unit.

Cash and Cash Equivalents - Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the Intermediate Unit's deposits may not be returned to it. The Intermediate Unit does not have a policy for custodial credit risk although the public school code requires that all deposits of the Intermediate Unit which are not insured are collateralized by the depository institution. As of June 30, 2014, \$19,837,375 of the Intermediate Unit's bank balance of \$20,087,375 was exposed to custodial credit risk as:

Investments

The Intermediate Unit invests in the Pennsylvania Local Government Investment Trust. The Pennsylvania Local Government Investment Trust (PLGIT) insures that it will not place deposits with any single issuing institution if the largest participant's pro rata share of such deposits exceeds \$250,000, unless such deposits are collateralized as prescribed by Act 72 of the Commonwealth of Pennsylvania. PLGIT funds have the characteristics of open-end mutual funds and are not subject to credit risk classification. The fair value of the Intermediate Unit's position in these investment pools is equivalent to the value of pool shares. The National Association of Securities Dealers act as the formal external regulatory oversight for the investment pools.

As of June 30, 2014, the Intermediate Unit had the following investments:

Investments	Maturity	Fair Value

Interest Rate Risk

The Intermediate Unit does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The Intermediate Unit has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2014, the Intermediate Unit investments were rated as:

Investments	Standard & Poor's
PLGIT	AAAm

Concentration of Credit Risk

The Intermediate Unit places no limit on the amount the Intermediate Unit can invest in any one issuer. Investments that represent 5% or more of a reporting unit's total investments are as follows:

Governmental Activities:	
PLGIT	100%
General Fund:	
PLGIT	100%

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Intermediate Unit will not be able to recover the value of its investment or collateral security that are in the possession of an outside party. The plan is governed by the Intermediate Unit which may amend the benefit provisions and contribution requirements by action of its Board of Directors, subject to collective bargaining where applicable. The plan does not issue financial statements.

Funding Policy

The Intermediate Unit has elected to finance postemployment benefits on a pay-as-you-go basis. The Intermediate Unit recognizes expenditures for postemployment group insurance when claims are filed with the plan administrator. These financial statements assume that pay-as-you-go funding will continue.

Annual OPEB Cost and Net OPEB Obligation

The Intermediate Unit's annual cost for other postemployment retirement benefits (OPEB) is calculated based on the annual required contribution (ARC) of the Intermediate Unit, an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following illustrates the components of the Intermediate Unit's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Intermediate Unit's net OPEB obligation:

Annual Required Contribution	846,941
Interest on OPEB Obligation	69,883
Adjustment to Annual Required Contribution	<u>(107,533)</u>
Annual OPEB Cost	809,291
Contributions Made	<u>689,726</u>
Estimated Increase in Net OPEB Obligation	119,565
Net OPEB Obligation - Beginning of Year	<u>1,747,081</u>
Net OPEB Obligation - End of Year	1,866,646

NOTE 10 - POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS AND LIABILITIES (Continued)

The Intermediate Unit's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014, 2013 and 2012 were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage Annual OPEB Cost Contributed	Net OPEB Obligation - End of Year
6/30/2014	809,921	85%	1,866,646
6/30/2013	852,892	70%	1,747,081
6/30/2012	793,367	68%	1,489,782

Funding Status and Funding Progress

As of July 1, 2012, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits equaled \$6,848,635, resulting in an unfunded actuarial accrued liability (UAAL) of \$6,848,635. The covered payroll (annual payroll of active employees covered by the plan) equaled \$53,174,539, and the ratio of the UAAL to the covered payroll equaled 12.88%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The Intermediate Unit is required to present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. However, because the Intermediate Unit maintains no plan assets, information relative to plan asset required disclosures is not applicable.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the Intermediate Unit and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the Intermediate Unit and plan members to that point. There are no legal or contractual funding limitations that would potentially affect the projection of benefits for financial accounting purposes. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

In the actuarial valuation dated July 1, 2012, the unit credit cost method was used. Because the Intermediate Unit funds its OPEB on a pay-as-you-go basis, the plan has no assets (investments) legally held exclusively for paying the postretirement medical benefits. Actuarial assumptions included a discount rate of 4.0% per annum, health care cost trend rate of 7.0% in the first year gradually decreasing by 1.0% per year to an ultimate rate of 4% in 2015 and later.

NOTE 11 - DEFINED BENEFIT PENSION PLAN

Plan Description

The Intermediate Unit contributes to a governmental cost-sharing multiple employer defined benefit pension plan administered by Pennsylvania Public School Employees' Retirement System (PSERS). Benefit provisions of the plan are established under the provisions of the Pennsylvania Public School Employees' Retirement Code (the Code) and may be amended by an act of the Pennsylvania State Legislature. The plan provides retirement, disability, and death benefits, legislatively mandated ad hoc cost-of-living adjustments, and healthcare insurance premium assistance to qualifying plan members and beneficiaries. It also provides for refunds of a member's accumulated contribution upon termination of a member's employment in the public school sector. PSERS issues a publicly available financial report that includes financial statements for the plan. That report may be obtained by writing to PSERS, P.O. Box 125, Harrisburg, PA 17108-0125.

Funding Policy

The contribution policy is set by the Code and requires contributions by active members, participating employers, and the Commonwealth of Pennsylvania. Plan members may belong to four membership classes. Class TC, Class TD, Class TE, and Class TF are available to plan members. Active members who joined the plan before July 22, 1983, are required to contribute 5.25% of their compensation if they are in Class TC or 6.50% for Class TD. Members who joined on or after July 22, 1983, and were active or inactive as of July 1, 2001, are required to contribute 6.25% for Class TC or 7.50% for Class TD. Members who joined the plan after June 30, 2001 and before July 1, 2011, are automatically in Class TD and are required to contribute 7.50%. Members who joined the plan after June 30, 2011, automatically contribute at the Membership Class TE rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class TF membership contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class TE and TF are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the membership Class TE contribution rate to fluctuate between 7.50% and 9.50% and membership Class TF contribution rate to fluctuate between 10.30% and 12.30%.

The contributions required of participating employers are based on an actuarial valuation and are expressed as a percentage of annual covered payroll during the period for which the amount is determined. For fiscal year ended June 30, 2014, the rate of employer contribution was 16.93% of covered payroll. The 16.93% rate is comprised of a pension contribution rate of 16.00% for pension benefits and 0.93% for health insurance premium assistance.

The Intermediate Unit is required to pay the entire employer contribution rate and is reimbursed by the Commonwealth in an amount equal to the Commonwealth's share as determined by the income aid ratio (as defined in Act 29 of 1994), which is at least one-half of the total employer rate.

The Intermediate Unit's contributions to PSERS for the years ended June 30, 2014, 2013, and 2012, were \$8,909,492, \$6,517,839 and \$4,762,034, respectively. Those amounts are equal to the required contribution for each year.

NOTE 12 - RISK MANAGEMENT

Hospitalization

The Intermediate Unit is participating in the insurance consortium with member school districts to provide for the medical care for eligible employees and their dependents. The Intermediate Unit remits funds to the third-party administrators who process and pay the claims. The Intermediate Unit was limited in liability for claims to \$150,000 per individual per year and \$14,629,392 in total per year.

NOTE 12 - RISK MANAGEMENT (Continued)

Hospitalization (Continued)

A liability for claims incurred prior to June 30, 2014, and subsequently paid is recorded in the amount of \$1,156,706 in accounts payable in the internal service fund.

Changes in the balances of claims liabilities during the past two years were as follows:

	Beginning of Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Year End
Medical				
2012 - 2013	1,472,172	11,722,018	(12,154,422)	1,039,768
2013 - 2014	1,039,768	11,818,233	(11,701,295)	1,156,706

Property and Liability

The Intermediate Unit has joined together with other school districts in the area to form the Lancaster-Lebanon Public Schools Insurance Pool (the Pool), a public entity risk pool currently operating as a common risk management and insurance program for thirteen member school districts, Lancaster-Lebanon Intermediate Unit, the Lancaster County Academy, and the Lancaster County Career and Technical Center. This agreement states that the Intermediate Unit pays an annual premium to the Pool for the purpose of seeking the prevention or lessening of casualty losses to members from injuries to persons or property which might result in claims being made against members and to pool the insurance risks, reserves, claims, and losses, and providing self-insurance and reinsurance thereof. It is the intent of the members of the Pool that the Pool will utilize funds contributed by the members to provide self-insurance and reimbursement to the members for certain losses, to defend and protect each member of the Pool in accordance with the agreement against certain liabilities and losses, and to purchase excess and aggregate stop-loss insurance for claims greater than \$100,000 per occurrence.

As of June 30, 2014, the Intermediate Unit is not aware of any additional assessments relating to the Pool.

Workers' Compensation

The Intermediate Unit is participating in the Lancaster-Lebanon Public Schools Workers' Compensation Fund (the Fund), which is a cooperative voluntary trust arrangement for fifteen member school districts, the Lancaster-Lebanon Intermediate Unit, the Lancaster County Academy, and Spring Grove Area School District. This agreement states that the Intermediate Unit pays an annual premium to the Fund for the purpose of seeking prevention or lessening of claims due to injuries of employees of the members and pooling workers' compensation and occupational disease insurance risks, reserves, claims and losses, and providing self-insurance and reinsurance thereof. It is the intent of the members of the Fund that the Fund will utilize funds contributed by the members, which shall be held in trust by the Fund, to provide self-insurance and reimbursement to the members for their obligations to pay compensation as required under the Workers' Compensation Act and the Pennsylvania Occupational Disease Act and to purchase excess and aggregate insurance.

As of June 30, 2014, the Intermediate Unit is not aware of any additional assessments relating to the Fund.

NOTE 12 - RISK MANAGEMENT (Continued)

Other Risks

The Intermediate Unit is exposed to other risks of loss related to theft of, damage to, and destruction of assets; errors and emissions; and natural disasters. The Intermediate Unit has purchased various insurance policies to safeguard its assets from risk of loss. During the year ended June 30, 2014, and the two previous years, no settlements exceeded insurance coverage.

NOTE 13 - CONTINGENT LIABILITIES

Guarantee of Debt

In November 2001, by approval of the board of directors, the Intermediate Unit guaranteed a \$2,025,000 bank loan of the Lancaster-Lebanon Joint Authority (the Authority). See Note 9 for details of the Authority's relationship with the Intermediate Unit. The bank loan matures annually through September 2016 with semiannual interest payments. All required payments on the loan are guaranteed by the Intermediate Unit in the event that the Authority is unable to make required payments. The balance of the guaranteed loan was \$555,000 at June 30, 2014.

Grant Programs

Amounts received or receivable from grantor agencies are subject to audit adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Intermediate Unit expects such amounts, if any, to be immaterial.

Legal Matters

The Intermediate Unit is involved in various claims and legal actions arising in the ordinary course of business. The outcome of these matters cannot be determined at this time.

NOTES to REQUIRED SUPPLEMENTARY INFORMATION

Lancaster-Lebanon Intermediate Unit No. 13 follows the following procedures in establishing the budgetary data reflected in the general purpose financial statements:

1. Under Act 1 requirements, management submits to the Intermediate Unit Board a preliminary budget for adoption 90 days prior to the primary election, and then a final budget for adoption on or before June 30, for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the general fund.
2. Prior to June 30, the budget is legally enacted through passage of a resolution.
3. Legal budgetary control is maintained by the Intermediate Unit Board at the departmental level. Transfers between departments, whether between funds or within a fund, or revisions that alter the total revenues and expenditures of any fund, must be approved by the Board. Budgetary information in the combined operating statements is presented at or below the legal level of budgetary control. It also includes the effects of approved budget amendments.
4. Budgetary data is included in the Intermediate Unit's management information system and is employed as a management control device during the year.
5. Unused appropriations lapse at the end of each fiscal year.
6. The budgets for the general fund and all special revenue funds are adopted on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Accordingly, actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective, and, consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities. Actuarial calculations are based on the types of benefits provided under the terms of the plan and on the pattern of cost-sharing between the employer and plan members at the time of the valuations.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of **Lancaster-Lebanon Intermediate Unit No. 13**, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise **Lancaster-Lebanon Intermediate Unit No. 13's** basic financial statements, and have issued our report thereon dated January 8, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered **Lancaster-Lebanon Intermediate Unit No. 13's** internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of **Lancaster-Lebanon Intermediate Unit No. 13's** internal control. Accordingly, we do not express an opinion on the effectiveness of **Lancaster-Lebanon Intermediate Unit No. 13's** internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether **Lancaster-Lebanon Intermediate Unit No. 13's** financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We have audited **Lancaster-Lebanon Intermediate Unit No. 13's** compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of **Lancaster-Lebanon Intermediate Unit No. 13's** major federal programs for the year ended June 30, 2014. **Lancaster-Lebanon Intermediate Unit No. 13's** major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Opinion on Each Major Federal Program

In our opinion, **Lancaster-Lebanon Intermediate Unit No. 13** complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of **Lancaster-Lebanon Intermediate Unit No. 13** is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered **Lancaster-Lebanon Intermediate Unit No. 13's** internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of **Lancaster-Lebanon Intermediate Unit No. 13's** internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
