HR Solutions for Schools

It's no secret that school HR needs are complex, evolving, and mission-critical. Does your school have a dedicated HR team? Or are personnel duties tied in with other roles? Either way, ensure that your staff has the supports and knowledge needed to not just "survive," but to succeed.

HR Solutions for Schools is here to provide your school with tested, customized HR tools, systems, and supports – your keys to success!

Applicant/Employee Records and Tracking Services

From application to offer of employment, the process of monitoring, tracking, and maintaining the range of records required for each member of your staff can seem overwhelming! Our series of database systems is designed to help HR teams process and track critical employment requirements and records. Perhaps more importantly, these systems were developed – and are used – by our own experienced HR professionals who support 1,500+ employees each day. Put our tried-and-tested systems to work for you!

- **Act 168 Database Services**
- **Electronic Leave Tracking Services** – *Coming in 2018-19!*

Consultation and Training Services

The roles and responsibilities of staff responsible for school human resources functions continue to evolve and grow with everchanging legal and work environments. Whether "face to face" or online, our customizable consultation and training services are designed to meet your school's individual HR needs. Our services have been developed and are delivered by HR professionals who have extensive experience with the array of challenges facing schools.

- **Act 126 Training Video Series**
- **Building Aide/Paraeducator Training Online**
- **Guest Teacher Training Online**
- **HR & Payroll Services**
- **McGrath Succeed On-Site Training**

Safety and Security Services

Today, educators and administrators are being asked to do so much more than "just teach." Safety and security management is one of many new (and critical!) hats educators are asked to wear. Our safety and security professionals can help. We are a resource for affordable and practical solutions which have been created "by educators for educators." Let us help you navigate the challenging waters of safety and security in your school.

- **Safety & Security Training & Consulting**
- **Act 126 Training and Compliance**
- **All-Hazard Planning**
- **Vulnerability Assessments**
