nearpod

Nearpod is an innovative collaboration tool for the synchronized use of mobile devices in the classroom. It combines presentation, engagement, and assessment tools into a single, integrated solution.

create | engage | assess

Benefits

- **CREATE** interactive classes with ease: Using the Nearpod Content Tool, simply upload a pdf or start a new presentation and add interactive features.

- **ENGAGE** students: Multimedia content harnesses students' attention, keeping them focused and minimizing off-task behavior.

- Quickly **ASSESS** student progress: Obtain detailed real-time and post-session reports showing individual and class results.

- **DISTANCE LEARNING**: With Nearpod, there's no need to be at the same place to join a presentation and learn.

- **ACCESS** detailed reports: Filter them by presentation, student, teacher, date, location or description.

- Join a session: Your students can join your Live session through iPads, iPods, Android mobile devices, Chromebooks, Surfaces, PCs and Macs by just entering its PIN.

How does Nearpod work?

A designated school administrator will manage the school's Nearpod account and they will be able to:

- Manage school users and obtain detailed information on them.

- Share presentations among teachers.

- Get detailed reports on each presentation launched and on students' performance.

- Access usage statistics.

- Customize the look and feel of the school's account.

PRICING:
Consortium pricing is $50 per teacher annually or $100 per teacher for a three-year subscription.

COMBO:
Nearpod platform and Nearpod content is $142 per teacher annually or $284 per teacher for a three-year subscription.
