

# Safety & Security Services

## Helping Schools Navigate the Challenges of Safety and Security

Today, educators and administrators are being asked to do so much more than “just teach.” Safety and security management is one of many new (and critical!) hats educators are asked to wear. Our safety and security professionals can help.

We are a resource for affordable and practical solutions which have been created “by educators for educators.” Let us help you navigate the challenging waters of safety and security in your school.

HR Solutions  
for Schools

1020 New Holland Avenue | Lancaster, PA 17601  
717-606-1600 | [www.iu13.org](http://www.iu13.org)

## Explore Our Services:

### **Safety & Security Training and Consulting**

Our certified, experienced professionals provide a range of customized training and consultation services developed to enhance the safety and security of school and workplace environments.

### **Act 126 Training and Compliance**

The video series features content experts from across the state and is filmed using a combination of interviews, dramatizations, and reviews. The series is designed to assist school entities and independent contractors in complying with PA Act 126 - the Child Abuse Recognition and Reporting Act.

### **All-Hazards Planning**

We will guide you through creating an All Hazards Plan -- which covers 26 potential hazards. Designed around the classic format of prevention, preparedness, response, and recovery, this user-friendly guide is an invaluable resource should an emergency strike.

### **Vulnerability Assessments**

Our Board-Certified Protection Professional (CPP) staff are ready to visit your location to find effective, affordable, and practical solutions for today's schools and organizations, recognizing the need to strike a balance between technology, procedures, and meeting the needs of your students and staff. With our professionals (not sales reps!), you'll receive an unbiased opinion about your organizational security needs.
