# PROVIDING FUN AND SAFE SUMMERS FOR MORE THAN 30 YEARS

At **Camp Invention®**, we have always found the right ways to bring hands-on STEM activities to children across all 50 states (plus D.C. and Puerto Rico!). We believe every child can invent, and we're inviting you to safely and creatively get your camp on when you join us for the best summer ever.

## PERSISTENCE

Build and test a device to launch rubber ducks, overcoming challenges to reach landmarks around the world while exploring the fun of physics.

## CONFIDENCE

Find your unique voice and amplify your big ideas as you reverse engineer a wireless microphone and put design thinking into action.

## CREATIVITY

Stretch your imagination as you design a nature-inspired, morphing vehicle that travels on land, and add prototype elements to adapt it for air and water.

## PROBLEM SOLVING

Develop helpful inventions for your very own SolarBot – a cool, robotic cricket inspired by real insects and powered by solar cells.

Camp Invention is a **nationally acclaimed summer STEM program** led by certified local educators and grouped by grade level to create effective, encouraging learning environments.

## 2021 FEATURED ITEMS:

Each camper gets their own **SolarBot, Microphone, Road Rally Car and Duck Launcher!**

*Camp Invention is organized by the Student Services program at IU13 which strives to challenge, support, and inspire students through enrichment activities, academic events, and competitions. These general education services allow students to tap into their interests and develop well-rounded skills and knowledge, while connecting with like-minded peers. Camp Invention is an annual favorite each summer at IU13. This summer, while safely at home, Camp Invention At Home will allow parents the chance to participate with their child(ren). IU13 staff will be available to offer general guidance, but parents will be free to modify the Camp Invention At Home curriculum to meet the specific needs of their children.*
