

# Educational Technology Team

## What is the IU13 Educational Technology Team?

The Educational Technology Team is a part of the Teaching and Learning Collaborative (TLC) in the Instructional Services Department at Lancaster-Lebanon Intermediate Unit 13. As a team, we provide direct support for Lancaster-Lebanon Virtual Solutions (LLVS), the Instructional Media Services (IMS), and our Instructional Technology Services/Programs for both our public districts and our nonpublic schools.

Effectively integrating technology into instruction is ever changing and growing exponentially. Our goal is to support the customized journey of high-quality technology integration and services that support online and hybrid learning with today's rich digital media to support teaching and learning.

# Curriculum & Instruction Team

## What is the IU13 Curriculum & Instruction Team?

The Curriculum and Instruction Team is a part of the Teaching and Learning Collaborative (TLC) in the Instructional Services Department at Lancaster-Lebanon Intermediate Unit 13. As a team, we provide consultative services and professional development focused on core curriculum, instruction, assessment, and school improvement for both our public districts and our nonpublic schools.

The development and implementation of high-quality curriculum, instruction, and assessment is more important now than ever. The curriculum and instruction team's goal is to provide comprehensive curriculum, instruction, assessment, and school improvement services that support effective teaching and strengthen student learning.

For more information, please check out the TLC catalog below:
