

OZOBOT TRAVEL

An IU13 Summer Enrichment Camp

Who can participate?	Students entering Grades 4 through 7 in Fall 2022
Two-Day Camp:	Wednesday, June 22, and Friday, June 24, 2022
Time:	8:30 – 11:30 AM both days
Location:	The Conference and Training Center at IU13, Burle Business Park, 1020 New Holland Avenue, Lancaster, PA
Tuition:	\$99.00
Registration Deadline:	June 15, 2022
Camper Limit:	15 campers – Click here to register today!

Description of Seminar: Student interest in coding continues to grow. There is a good reason for that—it is challenging, creative, exciting, and fun. It is also vitally important as a new language in the digital age. Logic and math skills are developed as well as problem solving abilities. It often requires a “Fail Forward” attitude as mistakes will be made and persistence will be required. Get the summer started right with new friends and tiny robots! Using both color and block coding capabilities of the Ozobot EVO, campers will enjoy a hands-on experience. With exploration as a theme, these tiny codable robots called Ozobots will challenge and delight campers. New skill instruction, a daily navigation challenge, and time for self-exploration with a variety of alternate activities will allow campers to learn and have fun. Because teamwork is vital in coding, some of the activities will be designed as partner or small group challenges. At other times, campers will be working independently. Because each camper will learn at a different pace, individual attention will be provided. We have found at past IU13 technology camps that campers are often very happy to help each other as they learn together. Join us for two days of “digital travel.”

Notes:

- This morning camp is geared toward beginner and intermediate coders.
- All supplies, including Ozobots, will be supplied for use by the campers.
- If camper is attending both morning (Ozobot) and afternoon (Sphero) enrichment camps, IU13 will host a supervised lunch* time from 11:30 AM-12:30 PM at no extra charge. (*Campers must bring their own packed lunch and drink – please refrain from peanut/nut products.)
- IU13 reserves the right to cancel this camp if there is inadequate enrollment. A full refund will be given.

Presenter: Judy Trusz is the Nonpublic Math Consultant in Student Services at IU13. She is also a former Algebra teacher and a 2018 Keystone Technology Innovator STAR. As a member of PAECT and PCTM, Ms. Trusz creates presentations on a variety of topics including Math, Codable Robots, and Google Apps for Education which she presents at Local, State, and National Conferences. She enjoys coaching teachers on classroom management and integrating technology into their classrooms.
