Does your family love animals and birds? Would you like to know more about how they adapt to their surroundings to survive? If so, this camp is for you! Time spent at Lancaster County Central Park is always educational and interactive! Join Naturalist Lisa Sanchez and IU13 staff for a one-day family experience and to learn about the wonders of nature found all around us! Campers will benefit from up-close and hands-on experiences as they take an in-depth look at food chains and discover the role of producers, consumers, herbivores, carnivores, and omnivores. Owl pellets will be dissected, and campers will learn to identify animal skulls, beaks, and teeth. Hikes will be planned in the woods, fields, and Conestoga River so we can look for signs of reptiles, birds and other animals who call Lancaster County Central Park "home."

To ensure a safe experience for all, we will remain outdoors throughout the day. Registrants will receive an email with more information.

Bring to Camp:

- Filled water bottle
- Packed lunch/drink (please nothing containing peanuts or nuts)
- Old sneakers or water shoes for creek/river exploration
- Suggested: backpack with small towel, sunblock, hat, bug repellent
