What is better on a hot summer day than a refreshing bit of water? Water is vital - we depend on it for life, but it is also a great deal of fun. Come spend three days with Lisa Sanchez, Park Naturalist, and staff from IU13 to experience water in so many ways. We will build (and float) boats made of recycled materials, explore the Conestoga River and catch some critters that live there, play water games, paint, garden, and more! Being outside, making new friends, and learning about the importance of clean water will be perfect experiences for summer campers. Join us!

NOTE: Dress for outdoor explorations, including a creek study. Water shoes or old sneakers will be required in the creek (**no flip flops** in the creek). To ensure a safe experience for all, we will remain outdoors throughout the day. Registrants will receive an email with more information.

Bring to Camp:

- Filled water bottle
- Packed lunch/drink (please no peanut or nut foods)
- Old sneakers or water shoes for creek/river exploration
- Suggested: backpack with small towel, sunblock, hat, bug repellent
