

Here's what teachers are doing..

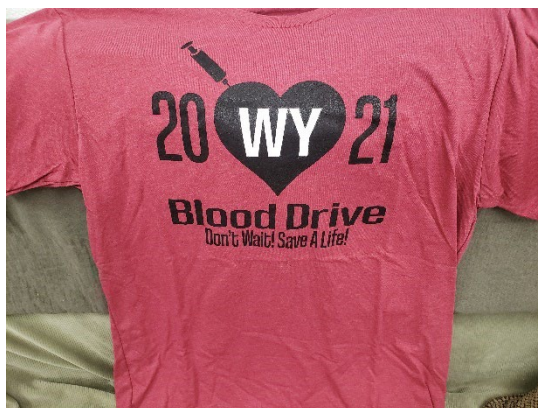

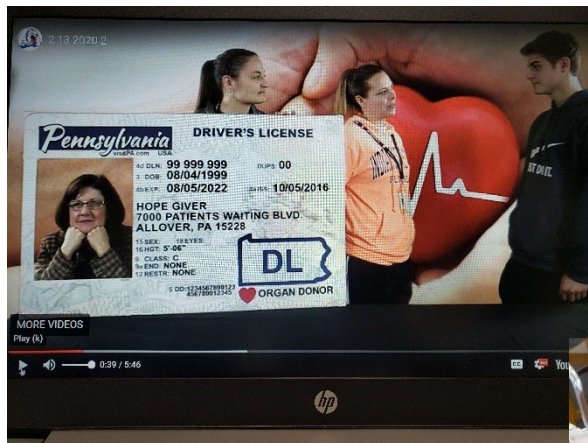

West York's Ashely Walton and Marisa created YouTube videos about organ donation during National Donor Day on February 14th.

They also encouraged students to take part in WYSD Blood Drive, using their funding to purchase T-shirts for the drive.

OTDA funding sponsored library books about organ and tissue donation. These books are displayed in the library during National Donate Life Month in April.

"Lunch and Learns" was an idea Ashley and Marisa implemented for students to explore topics of interest during extended lunch periods. Organ donation was one of the topics.
