

ESTABLISHING & MAINTAINING SUPPORTIVE LEARNING ENVIRONMENTS

Ensuring that our schools nurture the physical, mental, and social health of all students and staff is more important than ever. Whether you're exploring where to begin or how to continually enhance your efforts, there's no need to "go it alone."

Let's support each other toward the shared goal of establishing and maintaining Supportive Learning Environments in all of our schools! Join colleagues across the region in shaping the work of the **IU13 Supportive Learning Environment Collaborative** as we identify needs, share our knowledge and resources, and collaborate for meaningful strategies and solutions.

What is a Supportive Learning Environment?

A Supportive Learning Environment provides a safe and inclusive space for learning, forming positive and supportive relationships, and supporting learners and staff to thrive physically, mentally, and socially.

How do we collaboratively build a Supportive Learning Environment?

Our work provides the important opportunity for students, staff, and school leaders to:

- Assess and address **stress, trauma, and social-emotional needs**.
- Cultivate **physically and emotionally safe spaces** for learners and staff.
- Collaboratively identify **data-informed strategies** to accelerate learning while ensuring that all learners maintain access to high-quality, rigorous grade-level expectations.

How can IU13 support local schools/districts around Supportive Learning Environments?

- Hosting networking meetings.
- Providing a space for collaboration around school environment topics such as staff and student well-being, access and opportunity, collective efficacy, and building resilience.
- Facilitating professional learning to build a school's capacity in cultivating a Supportive Learning Environment.

We're here to help your school teams develop and implement plans!

School counselors, school psychologists, instructional coaches, building administrators, safety & security staff, SAP facilitators, and district leaders from public and nonpublic schools in Lancaster and Lebanon counties are invited to join the IU13 Supportive Learning Environment Collaborative to share resources, explore strategies, and network with colleagues.
