Why do I have to submit a health physical and TB Test?
PA School Code requires all school personnel, employees, and independent contractors, who provide direct services to students on behalf of a school to take a pre-employment medical examination and tuberculin test, the results of which shall be recorded on the forms prescribed by the Secretary of Health. When you apply to work at any PA School, you must provide evidence of a physical and TB Test via the School Personnel Health Record Form. Physical must have been completed within the last 12 months (from training date) and TB test (X-ray, blood test, or antigen test) must have been performed within 3 months of training date.

Contact the district directly for more information on rates of pay and other payroll matters. Current IU13 substitute pay rates are listed on the website here.

Once all of an applicant’s clearances and other required forms are submitted to Lancaster-Lebanon IU13 and emergency permit is obtained, it depends on the following criteria:

- **If working in IU13 classrooms** - additional information will be emailed to you, as well as access given to the Frontline system for scheduling sub assignments (board approval is required, however, you are able to start prior to board approval)

- **If interested in working in district classrooms** – your documents will be sent to districts and they will contact you directly. Board approval is usually required prior to start of employment.

- **If interested in working for STS** – your documents will be sent to STS. You will need to go to the STS website and apply (choose one district you would like to work for and later in the process they will ask you for your district preferences).
