The Lancaster-Lebanon Education Foundation is a tax-exempt 501(c)(3) education foundation that supports the work of Lancaster-Lebanon Intermediate Unit 13 (IU13). The Foundation's overall purpose is to provide financial or other support for learning opportunities, innovative programs, and existing programs that benefit children, students, and adult learners within IU13 and/or its member school districts.

Mission: The Lancaster-Lebanon Education Foundation, a charitable nonprofit organization, supports the IU13 education community by enhancing learning opportunities for students of all ages.

Vision: The Lancaster-Lebanon Education Foundation will be the leading advocate of advancing learning through educational support, innovation, and enrichment in Lancaster and Lebanon counties.

Guiding Principles: The LLEF...

- Supports educational opportunities above and beyond what is currently supported by school/district/ IU13 resources.
- Supports innovative educational opportunities for learners of any age who live in Lancaster and Lebanon counties; however, the priority is to support initiatives that benefit learners served by IU13 staff or programs or those of its member school districts.
- Actively pursues the financial, material, and human resources needed to achieve its mission.
- Supports educational opportunities with strong potential for broad and/or long-term benefits beyond Foundation funding or with the ability to be replicated.
- Prefers collaborative approaches to achieve its mission.
- Requires that recipients of Foundation funding be accountable for its use, both fiscally and through our programs.

Railroad Museum of Pennsylvania Education Programs

LEARNING IN MOTION

FOR YOU & YOUR STUDENTS

Learn about America's transportation heritage through the use of primary sources, vintage vehicles and artifacts from the Museum's world-class collection. Guided walking tours, workshops and virtual learning sessions offer interactive experiences for students in the preschool through secondary levels. Our education programs satisfy specific Pennsylvania academic standards in many subject areas. We can share some easy, creative and effective ways to integrate transportation history and technology into your lessons.

- **Stewart Junction Railway Education Center and TrainWorks:** The 1915-era freight station and Museum's main hall interactive exhibits demonstrate the basics of how trains and railroads work.
- **Virtual Learning:** Sessions via Zoom address specific railroad-related themes.
- **Scouts and Summer Day Camps:** Railroading merit badge workshops for individual youth ages 11 to 17. Summer day camps for ages 9 to 12. Spaces are very limited.
- **Educational Tours:** Guided, educational tours for school group and non-school group children and adults. Self-guided group tours also are available.
- **On The Road:** The action of railroading comes directly to your classroom or your community group's meeting.
- **Special Events:** Railroad-related programs throughout the year highlight many fascinating aspects of our nation's transportation heritage.
