Railroad Museum of Pennsylvania Education Programs

LEARNING IN MOTION

FOR YOU & YOUR STUDENTS

Learn about America's transportation heritage through the use of primary sources, vintage vehicles and artifacts from the Museum's world-class collection. Guided walking tours, workshops and virtual learning sessions offer interactive experiences for students in the preschool through secondary levels. Our education programs satisfy specific Pennsylvania academic standards in many subject areas. We can share some easy, creative and effective ways to integrate transportation history and technology into your lessons.

- **Stewart Junction Railway Education Center and TrainWorks:** The 1915-era freight station and Museum's main hall interactive exhibits demonstrate the basics of how trains and railroads work.
- **Virtual Learning:** Sessions via Zoom address specific railroad-related themes.
- **Scouts and Summer Day Camps:** Railroading merit badge workshops for individual youth ages 11 to 17. Summer day camps for ages 9 to 12. Spaces are very limited.
- **Educational Tours:** Guided, educational tours for school group and non-school group children and adults. Self-guided group tours also are available.
- **On The Road:** The action of railroading comes directly to your classroom or your community group's meeting.
- **Special Events:** Railroad-related programs throughout the year highlight many fascinating aspects of our nation's transportation heritage.

SCM IMPACT CUSHION

Increase
Safety for
Escalating
Students
& Staff

The SCM Impact Cushion has been developed to decrease facial and head injuries which sometimes occur with individuals in care. These injuries (most commonly rug burns) are accidental in nature. They may occur when an escalated student requires intervention in the form of Emergency Safety Physical Interventions on the floor. By banging their head or rubbing their face on the floor, the escalated student can cause significant personal injury. Because of potential neck injury, stabilizing the head during such incidents is felt to be more dangerous than allowing the behavior to exhaust naturally.

Appropriate Uses for The SCM Impact Cushion

- Shield to protect against punching, kicking, spitting and/or thrown objects
- SCM Seated/Kneeling Assists
- SCM Floor Assists
- Protect Against Self-harming Behaviors
