

Teacher Clarity Institute

2-day professional learning workshop with John Almarode

Students learn more when expectations are clear.

How do we double the speed of learning? By aligning lessons, objectives, and learning outcomes for organized and intentional teaching. That's right: Teacher clarity is one of the most potent influences on student achievement. With an [effect size of .84](#), it has the potential to double the speed of learning, according to the Visible Learning® research. When teachers are clear, students can plan and predict, set goals, and measure their learning progress.

This Teacher Clarity 2-day professional learning workshop facilitated by Dr. John Almarode, co-author of the *Teacher Clarity Playbook*, 2nd Edition, will unpack a process for designing instruction that invites students into the learning process. Working alongside peers, teachers will learn how to explicitly communicate to students what they will be learning on a given day, why they're learning it, and how to know if they were successful. The Teacher Clarity framework encourages a culture of assessment-capable visible learners who take ownership of their learning journey. And when learners have agency, student engagement and achievement soar.

Teacher Clarity Foundation - Day 1

Participants will examine the relationship between teaching and learning by activating skills and knowledge around identifying concepts and skills, sequencing learning progressions, elaborating learning intentions, crafting success criteria, and designing assessment opportunities.

Teacher Clarity Foundation - Day 2

Participants will gain a deeper level of understanding of Teacher Clarity as it connects to mastery infused with high-impact instruction. Day 2 is critical for providing a deep dive into assessing with Clarity that will move teams from the "knowing" phase to the "doing" phase and allow participants to reflect on the impact of their teaching.

Date: Wednesday, June 11, 2025
Thursday, June 12, 2025

Time: 8:30 AM - 3:30 PM

Location: The Conference and Training Center at IU13, 1020 New Holland Avenue, Lancaster

Target Audience: School district teams of teachers, instructional Coaches, building administrators, and district administrators
